

Personlig webbsida

När vi söker jobb kan det vara viktigt att visa för potentiella arbetsgivare vad vi kan. De flesta frontendutvecklare har en "portfolio", en webbsida där man lägger upp de projekt man har jobbat med.

Från och med nu kan du lägga upp övningarna du gör online. Det går bra att göra de första med CodePen eller JS Bin. GitHub Pages är en bra plattform för att skapa enkla webbsidor för projekt: <https://pages.github.com/>
